

Amanda J. Haskins, Ph.D.

Postdoctoral Scholar, UC San Diego

ajhaskins@ucsd.edu

ORCID: [0000-0002-3099-999X](https://orcid.org/0000-0002-3099-999X)

EDUCATION

Dartmouth College Ph.D., Psychological and Brain Sciences Advisor: Dr. Caroline Robertson “Gaze in Context: Individual and group differences in real-world visual attention”	2018 – 2024
University of North Carolina at Chapel Hill M.S., Speech-Language Pathology	2011 – 2013
Yale University B.A., Cognitive Science	2007 – 2011

PROFESSIONAL EXPERIENCE

University of California, San Diego Postdoctoral Scholar Advisor: Dr. Bria Long	2024 – present
Microsoft Research Ph.D. Research Intern, Enabling Experiences Team	2021
McGovern Institute for Brain Research, MIT Project Management Specialist, Autism Research	2014 – 2018

GRANTS, FELLOWSHIPS, & AWARDS

Huo Family Foundation Postdoctoral Fellowship	2026 – 2027
NIH Blueprint and BRAIN Initiative D-SPAN (F99/K00)	2023 – 2029
Marie A. Center 1982 Award, Graduate Student Excellence in Research	2023
Vision Sciences Society Annual Meeting, Travel Award	2023
Summer School on Computational Modeling for Language, UC Irvine, Travel Award	2022
Guarini Prize for Outstanding Research Poster, Dartmouth College	2019
LEND Fellowship in Neurodevelopmental Disorders, UNC – Chapel Hill	2012

PEER-REVIEWED PUBLICATIONS

Haskins, A., Packard, K.O., & Robertson, C.E. (2026). Conceptual priorities shape individual gaze patterns during naturalistic visual attention. *Proceedings of the National Academy of Sciences*, 123(24), e2604369123.

Clark, T.H., Poliak, M., Regev, T., Haskins, A., Robertson, C.E., & Gibson, E. (2025). The relationship between surprisal and prosodic prominence in conversation reflects intelligibility-oriented pressures. *Cognitive Science*, 49(10), e70134.

Haskins, A.*, Mentch, J.*, van Wicklin, C., Choi, Y.B., & Robertson, C. (2024). Brief report: Differences in naturalistic attention to real-world scenes in adolescents with 16p11.2 deletion. *Journal of Autism & Developmental Disorders*, 54(3), 1078–1087.

Choi, Y.B.*, Mentch, J.*, Haskins, A., van Wicklin, C., & Robertson, C. (2023). Visual processing in genetic conditions linked to autism: A behavioral study of binocular rivalry in individuals with 16p11.2 deletion and FMR1 mutation, and age-matched controls. *Autism Research*, 16(4), 831–840.

Haskins, A., Mentch, J., Botch, T., Garcia, B., Burrows, A., & Robertson, C. (2022). Reduced social attention in autism is magnified by perceptual load in naturalistic environments. *Autism Research*, 15(12), 2310–2323.

Jamal, W., Cardinaux, A., Haskins, A., Kjelgaard, M., & Sinha, P. (2021). Reduced sensory habituation in autism and its correlation with behavioral measures. *Journal of Autism and Developmental Disorders*, 51(9), 3153–3164.

Haskins, A., Mentch, J., Botch, T., & Robertson, C. (2020). Active vision in immersive, 360° real-world environments. *Scientific Reports*, 10(1), 14304.

Jouravlev, O., Kell, A., Mineroff, Z., Haskins, A., Ayyash, D., Kanwisher, N., & Fedorenko, E. (2020). Reduced language lateralization in autism and the broader autism phenotype as assessed with robust individual-subjects analyses. *Autism Research*, 13(10), 1746–1761.

Spiegel, A., Mentch, J., Haskins, A., & Robertson, C.E. (2019). Slower rate of binocular rivalry in the autistic brain. *Current Biology*, 29(17), 2948–2953.e3.

Kliemann, D., Richardson, H., Anzellotti, S., Ayyash, D., Haskins, A., Gabrieli, J.D.E., & Saxe, R.R. (2018). Cortical responses to dynamic emotional facial expressions generalize across stimuli, and are sensitive to task-relevance, in adults with and without autism. *Cortex*, 103, 24–43.

INVITED TALKS

Invited Talk, Social Cognition and Learning Lab, UC San Diego	March 2024
Invited Talk, Psychology of Language Lab, Princeton University	February 2024
Invited Talk, Cognitive Development Lab, Indiana University	January 2024
Invited Talk, Saxe Lab, MIT	April 2023
Invited Talk, Language Lab / TedLab, MIT	November 2022
Human-Computer Interaction Intern Series, Microsoft Research	August 2021
Invited Talk, Isik Lab, Johns Hopkins University	July 2021

CONFERENCE PRESENTATIONS

Knowledge differences affect gaze behavior during naturalistic object exploration. Haskins, A., Sepuri, T., & Long, B. Conference on Cognitive Computational Neuroscience (CCN). **Poster, August 2025.**

Knowledge differences affect naturalistic object exploration. Southern California Meeting for Investigations in Developmental Science. **Talk, May 2025.**

Gaze patterns modeled with a LLM can be used to classify autistic vs. non-autistic viewers. Haskins, A., Botch, T.L., Garcia, B.D., McLaren, J., & Robertson, C.E. Vision Sciences Society (VSS) Annual Meeting. **Poster, May 2024.**

Autistic group differences in social attention are magnified by real-world perceptual load and linguistic features. Haskins, A.J., Mentch, J., Botch, T.L., Garcia, B.D., Burrows, A.L., & Robertson, C. International Society for Autism Research (INSAR) Annual Meeting. **Talk, May 2023.**

Stable individual differences in gaze behavior reflect unique conceptual priority maps. Packard, K., Haskins, A.J., & Robertson, C.E. Vision Sciences Society (VSS) Annual Meeting. **Poster, May 2023.**

Autistic group differences in social attention are magnified by real-world perceptual and linguistic features. Haskins, A.J., Mentch, J., Botch, T.L., Garcia, B.D., Burrows, A.L., & Robertson, C.E. Vision Sciences Society (VSS) Annual Meeting. **Poster, May 2023.**

Behind the Eyes: Insights into cognition from naturalistic gaze behavior in VR (Tutorial Co-Presenter). Keynote: C.E. Robertson; Tutorial: A.J. Haskins, D. Prasad, T. Botch, & B. Garcia. Conference on Cognitive Computational Neuroscience (CCN). **Tutorial, August 2023.**

Stable, individuating patterns of visual attention in abstract conceptual feature space revealed using natural language model. Haskins, A.J., Packard, K.O., & Robertson, C.E. Conference on Cognitive Computational Neuroscience (CCN). **Poster, August 2023.**

“Attentional Fingerprints”: Real-world scene semantics capture individuating signatures in gaze behavior. Haskins, A.J., & Robertson, C.E. Vision Sciences Society (VSS) Annual Meeting. **Talk, May 2022.**

Measuring naturalistic attention in complex, real-world environments in autism. Haskins, A.J., Botch, T.L., Garcia, B.D., McLaren, J.L., & Robertson, C. International Society for Autism Research (INSAR) Annual Meeting. **Talk, May 2021.**

Active vision impacts how we move our eyes and what we attend to: Evidence from eye-tracking in immersive, 360° real-world environments. Haskins, A.J., Mentch, J., Botch, T., Steel, A., & Robertson, C. Vision Sciences Society (VSS) Annual Meeting. **Talk, June 2020.**

SERVICE & PEER REVIEW

Ad Hoc Journal Reviewer: Autism, Infancy, Journal of Vision

Abstract Reviewer, Meeting on Language in Autism (MoLA)

Panelist, Hidden Curriculum Panel, Career Transition Series, UC San Diego January 2025

Co-Organizer, Cognitive Brown Bag Series, Dartmouth College 2021 – 2023

Graduate student representative, Faculty Fellow Search Committee, Dartmouth College 2021 – 2022

Graduate student representative, Climate Initiative Working Group, Dartmouth College 2020 – 2021

Co-Organizer, Graduate Student Research Roundtable, Dartmouth College 2019 – 2020

TEACHING EXPERIENCE

Guest Lecture, PSYC 397: Infant Cognition, Lehigh University October 2025

“Naturalistic viewing for new insights on visual attention”

Laboratory in Psychological Science — Course TA and Guest Lecturer 2019, 2020

Cognitive Neuroscience — Course TA 2020

Developmental Psychology — Course TA and Guest Lecturer 2020

HONORS THESIS MENTORSHIP

Nicole Sahrling, UC San Diego 2025 – 2026

“Relating changes in children’s line drawings and descriptions across development”

Outstanding Undergraduate Researcher Award

Kate Packard, Dartmouth College 2021 – 2023

“Semantic content and gaze patterns during dyadic conversation in autism”

Best Thesis Prize, Psychology; Honorable Mention, Neukom Outstanding Undergraduate Research

Erica Busch, Dartmouth College 2019 – 2020

“A deep learning approach to scene perception in autism”

Academic Achievement Prize, Cognitive Science; 2nd Prize, Neukom Outstanding Undergraduate Research
